Veteran, Commercial pilots license/instrument.

Costa Mesa promised a "family oriented" community. We must return to the commitments and values of that vision: A hometown atmosphere; a family setting; little traffic and very safe. I support the actions needed which guarantee a return to these values. We cannot afford to wait.

We cannot allow the city to:

- increase taxes;
- penalize our children's education, recreation and protection;
- continue to encourage high population density growth;
- allow traffic to increase;
- allow decisions which ignore family values and safety issues;
- continue the neglectful city management policies regarding our athletic field use/upkeep.

We need to:

- support and improve police, fire and emergency services;
- improve our Parks and Recreation activities and facilities;
- attract small family businesses;
- provide major support for Westside Revitalization;
- repair the streets;
- encourage more involvement with youth programs both educational and recreational;
- promote tourism.
